

WELCOME, ESRI TEAM

Data Discovery

YOUR app to show off Baron Weather data.

Empower your customers with world-class weather intelligence. As a Gold Esri Partner, Baron Weather data is available for direct purchase through Esri, making it easier than ever to add smarter insights to your contracts.

Explore the Catalog

Browse more than 25 ArcGIS-ready data layers. From global lightning to specific U.S. road conditions, find the exact technical details and layers you need for your next presentation.

Style Your Own Maps

Build and save specific map views tailored to your customer's mission. Layer assets over Baron data in key areas of interest to create a visual story you can return to instantly during a high-stakes call.

Setup a Trial Instantly

Give customers hands-on access for 30 days. Provision a free trial while on a call to immediately demonstrate how Baron's weather intelligence adds value to their existing ArcGIS investment.
